AHE series id (NAICS)= CEU6562200006	2004	\$19.95	\$20.01	\$19.98										

**Note: PPI data are preliminary for four months.** Base years vary by PPI code. Base years for above PPI codes are: 212111 (12/01 = 100); 212113 (12/79=100); 213112 (12/85=100); 517 (12/03=100); 336110 (6/82=100); 336412 (12/85=100); 561320 (12/03=100); 622 (12/92=100).

**Note: AHE data are preliminary for one month.** AHE data are taken from the National Current Employment Statistics Survey. Earnings are actual returns to workers for a stated period of time. Excluded are irregular bonuses, retroactive items, payments of various welfare benefits, payroll taxes paid by employers, and earnings for employees not covered under production workers, construction workers, or nonsupervisory employee definitions.

**Notice:** With the release of data for January 2004 on March 18, 2004, the Producer Price Index program changed its basis for industry classification from the 1987 Standard Industrial Classification (SIC) system to the 2002 North American Industry Classification System (NAICS). The Current Employment Statistics (CES) survey published National data on a NAICS 2002 basis with the release of May 2003 data on June 6, 2003. SIC-based data will no longer be produced or published for either program. Historical time series were reconstructed as part of the NAICS conversion process. As a result of this change the PPI and AHE series above are in most cases not comparable to those published in previous versions of this document. For more information on NAICS, please see <http://www.bls.gov/bls/naics.htm>.
